## **DTS CORPORATION and Consolidated Subsidiaries**

### **Notes to Quarterly Consolidated Financial Statements Nine Months and Three Months Ended December 31, 2008—Unaudited**

---

#### **1. BASIS OF PRESENTING QUARTERLY CONSOLIDATED FINANCIAL STATEMENTS**

The accompanying unaudited quarterly consolidated financial statements of DTS CORPORATION (the "Company") and its consolidated subsidiaries have been prepared in accordance with the provisions set forth in the Financial Instruments and Exchange Law of Japan and its related accounting regulations, and in conformity with accounting principles generally accepted in Japan ("Japanese GAAP"), which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards.

On March 14, 2007, the Accounting Standards Board of Japan ("ASBJ") issued ASBJ Statement No. 12, "Accounting Standard for Quarterly Financial Reporting" and ASBJ Guidance No. 14, "Guidance on Accounting Standard for Quarterly Financial Reporting," which are effective for fiscal years beginning on or after April 1, 2008, in response to the introduction of a quarterly financial reporting system required by enactment of the Financial Instruments and Exchange Law of Japan.

This new standard requires an entity, in principle, to apply the same accounting principles and procedures in its quarterly financial statements as in its annual financial statements, except for special accounting methods for quarterly financial statements. However, an entity may apply simplified accounting methods unless they mislead users of quarterly financial statements.

Under this standard, certain financial information that is normally included in annual financial statements prepared in accordance with Japanese GAAP is not required to be presented for quarterly financial statements except for certain items, such as segment information and quarterly earnings, and significant items which users need in order to understand quarterly financial statements, i.e., items which have significantly changed since the last annual reporting date.

In preparing the accompanying unaudited quarterly consolidated financial statements, certain reclassifications and rearrangements have been made to the consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan.

The unaudited quarterly consolidated financial statements are stated in Japanese yen, the currency of the country in which the Company is incorporated and operates. The translations of Japanese yen amounts into U.S. dollar amounts are included solely for the convenience of readers outside Japan and have been made at the rate of ¥91.03 to \$1, the approximate rate of exchange at December 31, 2008. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

#### **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying unaudited quarterly consolidated financial statements are prepared based on the same accounting policies except otherwise stated below and should be read in conjunction with the consolidated financial statements and related notes included in the Company's "Consolidated Financial Statements for the Years Ended March 31, 2008 and 2007."

#### **3. ADOPTION OF NEW ACCOUNTING STANDARDS**

- a. ***Measurement of Inventories***—Under the previous accounting standard, inventories had been stated at cost.

On July 5, 2006, the ASBJ issued ASBJ Statement No. 9, "Accounting Standard for Measurement of Inventories," which is effective for fiscal years beginning on or after April 1, 2008 with early adoption permitted. This standard requires that inventories held for sale in the ordinary course of business be measured at the lower of cost or net selling value, which is defined as the selling price less additional estimated manufacturing costs and estimated direct selling expenses. The replacement cost may be used in place of the net selling value, if appropriate. The standard also requires that inventories held for trading purposes be measured at the market price.

The Company adopted this new standard effective on April 1, 2008. The adoption of this standard has no effect on net income for the nine months ended December 31, 2008.

- b. Lease Accounting**—Under the previous accounting standard, finance lease transactions that do not deem to transfer ownership of the leased property to the lessee had been accounted for as operating lease.

On March 30, 2007, the ASBJ revised ASBJ Statement No. 13, “Accounting Standard for Lease Transactions” and ASBJ Guidance No. 16, “Guidance on Accounting Standard for Lease Transactions,” which revised the accounting standard for lease transactions issued on June 17, 1993. The revised accounting standard for lease transactions, which requires that all finance lease transactions be capitalized, is effective for fiscal years beginning on or after April 1, 2008, with early adoption permitted for fiscal years beginning on or after April 1, 2007.

The Company adopted this revised standard effective on April 1, 2008 for lease transactions entered into on and after that date and depreciates capitalized leased assets on the straight-line method over the respective lease terms with no residual value. The adoption of this revised standard has no effect on net income for the nine months ended December 31, 2008.

#### **4. APPLICATION OF SIMPLIFIED ACCOUNTING METHODS**

- a. Inventories**—As of December 31, 2008, physical inventory counts were not performed and inventories are adjusted for an estimated shrinkage factor based on the results of physical inventory counts performed as of March 31, 2008 and measured at cost if a loss of profitability was not apparent.
- b. Property and Equipment**—Depreciation charge for property and equipment depreciated using the declining-balance method represents proportional amount of the annual budget.

#### **5. APPLICATION OF ACCOUNTING METHODS SPECIAL FOR PREPARING QUARTERLY FINANCIAL STATEMENTS**

**Income Taxes**—Income taxes are calculated by multiplying the income before income taxes and minority interests for the nine months ended December 31, 2008 by the estimated effective tax rate for the year ending March 31, 2009, after taking into account the effect of possible temporary differences.

#### **6. SELLING, GENERAL AND ADMINISTRATIVE EXPENSES**

Major items of selling, general and administrative expenses for the nine months and three months ended December 31, 2008 were as follows:

<u>Nine months ended December 31, 2008</u>	<u>Millions of Yen</u>	<u>Thousands of U.S. Dollars</u>

<u>Three months ended December 31, 2008</u>		
Salaries and fringe benefits	¥ 421	\$ 4,625
Provision for bonuses	126	1,384

#### **7. IMPAIRMENT OF GOODWILL**

Impairment of goodwill of ¥111 million (\$1,219 thousand) recorded in the nine months ended December 31, 2008, is an impairment loss on goodwill recognized following an assessment of the financial performance of RD Corporation, one of the consolidated subsidiaries, during the second quarter.
