**Net sales:** Up 16.2% year on year, 0.9% more than the plan

Net sales were driven by sales in the finance sector, especially orders for large development projects. Sales increased from a year ago in other sectors. New consolidated subsidiaries also added to sales. As a result, net sales rose sharply and exceeded the plan.

(Sales by service)

System: Sales in the finance sector were strong, driven by orders for large development projects. Sales in the communications and services sectors, which fell until the previous quarter, rose. Sales in the public sector were robust.

Operation: Sales were adversely affected by the promotion of in-house production by customers, while sales from new operation projects and new consolidated subsidiaries added to sales. Products etc.: The virtualization business performed well at a new consolidated subsidiary. Staffing Service: Sales were affected by reviews of worker dispatch agreements in response to an expected revision of the Worker Dispatch Law.

**Gross profit:** Up 34.3% year on year, 8.5% less than the plan

Gross profit rose, reflecting an increase in net sales and the reduction of unprofitable projects, but was short of the plan because of the relative unprofitability of certain projects.

**Operating income:** An increase of 1,226 million yen from a year ago, 23.3% less than the plan

SG&A expenses climbed from a year ago, attributable to new consolidated subsidiaries, but the ratio of SG&A expenses declined to 10.2%, down from 11.3% with the reduction in expenses and a fall in the amortization of goodwill.

Operating income increased, reflecting a rise in gross profit.
