1. Overview of Operating Results and Others

(1) Overview of operating results for the fiscal year under review

1) Operating results for the fiscal year under review

Forward-looking statements in this document are based on our views as of the end of the fiscal year under review.

In addition, the Company has applied the "Accounting Standard for Revenue Recognition" (ASBJ Statement No. 29, March 31, 2020) and relevant revised ASBJ regulations from the fiscal year under review; however, year-on-year comparisons are with the results for the same period of the previous year (fiscal year ended March 31, 2021) prior to the adoption of the said standard and the relevant revised ASBJ regulations.

Therefore, in the description about the operating results for the fiscal year under review, the amount and percentage of year-on-year change are not included.

Details are as described in '(Changes in accounting policies) in (5) Notes to consolidated financial statements in 5. Consolidated Financial Statements and Significant Notes Thereto.'

In the fiscal year under review, as the Japanese economy remained in a difficult situation due to the impact of the novel coronavirus disease (COVID-19), the economy was weak in some areas. Going forward, amid the uncertainty due to the situation in Ukraine, a downside risk stemming from a rise in raw material prices, constraints on the supply side, etc., the impact of COVID-19, and others require careful attention.

In this environment, the DTS Group has established a vision for its medium-term management plan (April 2019 to March 2022) of becoming a "Next Value Creator, providing new value to the society of tomorrow," as well as drew up the three basic policies of "realization of a sustainable society," "evolution into a new system integrator," and "transformation into self-driven employees," and worked on five key activities ("Strengthening marketing capability and SI capability," "Creating new business," "Strengthening the Group's management foundation," "Innovating in-house information systems and administrative processes" and "Carrying out work-style reforms").

Net sales for the fiscal year under review were ¥94,452 million (¥90,493 million in the same period of the previous fiscal year), the operating profit was ¥11,196 million, which showed growth for the 12th consecutive year and is a record high for the eighth consecutive year, and the operating margin was 11.9% to achieve an operating margin of 10% or more for the sixth consecutive year.

■ Strengthening marketing capability and SI capability

In order to expand our DX business in line with the development of a digital society, we newly established Digital Solution Sector in April 2021, and also, we are working to strengthen our marketing capability, including promotional activities, marketing research, and establishing information provision websites.

In the fiscal year under review, we implemented proposal activities in response to customer needs, such as the adoption of "ReSM plus," which is strong in improving the efficiency of cumbersome help desk operations, in the operation of public sector network systems.

In November 2021, the Company and Pacific Business Consulting, Inc. entered into a business alliance for system development using the cloud-based business application "Microsoft Dynamics 365." Combining the Company's operational know-how and development capabilities with the company's consulting capabilities, we moved forward with our first joint development project for a dedicated customer relationship management ("CRM") system for the housing industry, working to continue to provide high value added services to our customers.

In December 2021, as we satisfied ServiceNow, Inc's service partner program requirements including a systems integration track record, customer evaluations, and engineer development, we were certified as part of ServiceNow's "Premier" segment. We will continue to work on the expansion of our cloud business.

Creating new business

In the fiscal year under review, we worked to train 900 DX employees and achieve a 35% ratio of DX-related net sales, surpassing the initial medium-term management plan target. As a result, DX-related sales for the fiscal year under review were approximately \(\frac{\pmathbf{4}}{3}\)2.5 billion (approximately \(\frac{\pmathbf{2}}{2}\)7.6 billion in the same period of the previous fiscal year), the ratio of DX-related net sales was 34.4%, and the number of DX employees was 843 people (584 people at the end of the previous fiscal year). We will continue to work on human resource development to further expand growing fields such as digital, solutions and services.

In June 2021, I Net Rely Corporation became a consolidated subsidiary of the Company. We strengthened our network solution business by combining the know-how of our network engineers with the company's technical capabilities in infrastructure design, construction, and operation management.

Moreover, DTS INSIGHT CORPORATION entered into a capital and business alliance with CHOWA GIKEN Corporation for the purpose of expanding businesses utilizing AI as well as people-to-people exchange.

■ Strengthening the Group's management foundation and Innovating in-house information systems and administrative processes

It was confirmed that the Company would belong to the "Prime Market" in January 2022, and the Company moved to the market as planned in April 2022.

Regarding ESG initiatives, we established the "DTS Group SDGs award" to raise in-house awareness, and has been expanding operations that contribute to SDGs (net sales of approximately \(\frac{4}{16.6}\) billion in the previous fiscal year). In terms of the environment, we have set new goals such as further reducing CO2 emissions and paper consumption, and are promoting reduction of the environmental load

In November 2021, we published the DTS Group REPORT 2021 in the interest of promoting a constructive dialogue with stakeholders. Furthermore, to provide the necessary information to all our stakeholders including overseas customers and investors in an easily understandable format, we updated the English-language version of the Company's website.

Moreover, MIRUCA CORPORATION, the Group's education specialist, has developed a new training curriculum for new employees that is designed to be used online. In addition to the establishment of DX Engineer Advanced Course, we have expanded DX-related on-demand training to further enhance training according to individual skill levels. We will continue to focus on human resource development.

■ Carrying out work-style reforms

As part of our health management initiatives, we have set up an environment for online medical care, which is effective for the COVID-19 crisis and remote work, and provide consultation on health checkup results, sleep apnea testing, and smoking cessation outpatient services, etc. In addition, we offer online seitai yoga (osteopathic yoga) classes and the Health Challenge Campaign (Note 1) to help our employees get enough exercise and improve their physical and mental health.

Through these initiatives, we obtained the "Company of Health Excellence Certification (Gold Certification)" (Note 2) once again this year. In addition, the Company was selected as a Health & Productivity Management Brand 2022 (Note 3) and certified as Health & Productivity Management Outstanding Organization (White 500) 2022 (Note 4). The Company will continue to promote health management to help our employees improve their health and create a healthy work environment for them.

■ Introduction of restricted share-based remuneration plan

The Company has introduced a restricted share-based remuneration plan in order to provide incentives for directors (excluding outside directors) and executive officers of the Company to sustainably enhance corporate value and in order to promote further value sharing with shareholders.

Shareholder returns

In order to improve capital efficiency and to further improve returns for our shareholders, we acquired 385,200 treasury shares from April to June 2021, and 371,900 treasury shares from February to March 2022. In addition, the Company canceled 1,371,900 shares which were part of treasury shares held in March 2022.

■ "Major initiatives"

To strengthen the supervisory function for the Board of Directors and further enhance corporate governance, the Company resolved at a meeting of the Board of Directors to make a transition to a company with Audit and Supervisory Committee, subject to approval at the 50th Annual General Meeting of Shareholders to be held on June 23, 2022.

For the new medium-term management plan, which starts in April 2022, the Company made necessary organizational changes including integration of manufacturing and sales, further strengthening of the DX business and enhancement of services to address challenges such as transformation of businesses of the Group and reform of the business portfolio. In addition, to further move forward ESG activities, the Company establishes a responsible organization and further strengthen company-wide cross-sectional activities.

As the environment surrounding companies is changing drastically, based on the recognition that it is an important business challenge to balance realization of a sustainable society and sustainable corporate growth, the Group newly set up the Sustainability Committee to further strengthen its environmental and social initiatives.

As a result of the above, the Group reported net sales of ¥94,452 million for the fiscal year under review, an improvement in sales compared to ¥90,493 million in the same period of the previous fiscal year. The main factors affecting the above were steady progress of DX-related projects and the consolidation of I Net Rely Corporation in the infrastructure product field. Gross profit was ¥19,141 million, compared to ¥18,054 million in the same period of the previous fiscal year, due to the increase in net sales. Selling, general and administrative expenses were ¥7,944 million (¥7,237 million in the same period of the previous fiscal year). This was mainly due to an increase in research and development expenses. With the increase in gross profit, operating profit came to ¥11,196 million, compared to ¥10,817 million in the same period of the previous fiscal year, and ordinary profit came to ¥11,403 million, compared to ¥11,131 million in the same period of the previous fiscal year. Profit attributable to owners of parent was ¥7,853 million (compared to ¥7,593 million in the same period of the previous fiscal year), mainly due to the increase in operating profit.

| Profit (Non-consolidated) | _ | _ | 6,594 | _ |

<Breakdown of net sales>

(Million yen)

| | Consolidated | Year-on-year change |
|--------------------------------|--------------|---------------------|
| Finance and Society | 28,429 | _ |
| Corporate Solutions | 27,512 | _ |
| Operational Infrastructure BPO | 27,199 | _ |
| Regional, Overseas, Etc. | 11,311 | _ |
| Total | 94,452 | _ |

Summaries of the operational conditions of each segment are as follows.

Finance and Society Segment

Due to slower progress in projects for the banking industry, despite robust progress of development projects for the telecommunications industry and securities companies, net sales were \(\frac{\pma}{2}\)8,429 million, compared to \(\frac{\pma}{2}\)8,444 million in the same period of the previous fiscal year.

In June 2021, "AMLion," a package system that complies with international anti-money laundering standards and supports a wide range of related operations, has been adopted by Mitsubishi UFJ Morgan Stanley Securities Co., Ltd. In January 2022, we began providing and offering free trials of our FSA (Financial Services Agency)-guideline-compliant sanctions list verification function to securities, insurance, and credit card companies. We will continue providing not only anti-money laundering and anti-terrorist financing measures, but also trading review management systems for securities companies and crypto-asset exchanges.

In addition, the Group is cooperating with ALTAIR ENGINEERING, LTD to provide countermeasures for false detection and new illegal hacks, which have become a problem for fraud detection for cashless payments, and launched sales of "Illicit Activity Prediction and Detection Solutions," a hybrid solution that combines AI with a rule-based engine. Going forward, the Group will continue to provide financial institutions with total support for solutions to prevent financial crime.

Furthermore, regarding the "DAVinCI LABS," platform that allows anyone with operational knowledge to perform data analysis using AI easily, we began providing the SaaS-type cloud service, "DAVinCI Jr," which can be introduced at lower cost compared to the existing model.

Corporate Solutions Segment

Net sales came to \(\frac{\pmathbb{2}}{27,512}\) million, compared with \(\frac{\pmathbb{2}}{26,365}\) million in the same period of the previous fiscal year, due to satisfactory progress in DX-related projects, including cloud-based projects and those utilizing our own packages.

In June 2021, we released a construction management application with the ability to manage and report on construction progress, as well as manage drawings and other documents. In order to further improve the operational efficiency of the construction and real estate industries, we will continue to develop sales that meet the needs of our customers by adding functions and customizing flexibly.

Moreover, for eG-Connector, which provides simple interlinking with the official web portal of Government of Japan, e-Gov's online administrative services (Note 5), the Group is working to strengthen SAP-related solutions, such as enabling applications for health insurance societies via the Mynaportal (individual number card portal).

In February 2022, the Group began providing "AWS Introduction and Operation Service" to provide consistent support from pre-installation of Amazon Web Services (AWS) to operation and maintenance support.

At DTS INSIGHT CORPORATION, the Group launched sales of "HiFive Unmatched" a new product for SiFive's RISC-V (Note 6) development boards. This product provides a simple method for building RISC-V applications and products for various industries, including the automotive, industrial

equipment and office automation equipment industries. Going forward, the Group will work to promote the expansion of sales of RISC-V related products.

Operational Infrastructure BPO Segment

In the infrastructure product field, net sales totaled \(\frac{\text{27}}{199}\) million, compared with \(\frac{\text{25}}{25,238}\) million in the same period of the previous fiscal year, due to steady growth in operational design of systems for the telecommunications industry, and the consolidation of I Net Rely Corporation, despite the counter-effect of large-scale projects in the previous fiscal year and delayed deliveries caused by the semiconductor supply shortage.

We have also worked to expand sales of "ReSM plus," which supports internal help desk operations through digital technology, and acquire SI projects for "ServiceNow," which is utilized as a platform for ReSM plus.

In addition, the Group made I Net Rely Corporation a consolidated subsidiary in June 2021 and constructed a system to cover the entire network infrastructure system, including the network systems of facilities. We have built a track record of collaboration since the fiscal year under review, and will work to leverage the strengths of the Group going forward in order to further expand the Network Solutions Business.

Regional, Overseas, Etc. Segment

Net sales were ¥11,311 million, compared with ¥10,444 million in the same period of the previous fiscal year, due to robust performance in development projects for the information and communications industry in the regional field, etc.

In April 2021, DTS SOFTWARE VIETNAM CO., LTD. participated in the "Sao Khue 2021" organized by Vietnam Software and IT Services Association with "Walk in home," which the company developed under contract from the Company, and won the "Sao Khue Award (Note 7)" for the best product and service in the field of new software products and solutions.

At DTS WEST CORPORATION, the "kotosora," (Note 8) AI-enhanced FAQ solution, has been introduced for the Motor Tax Chat Bot and Competitive Bidding Eligibility Chat Bot of Tottori Prefecture. Furthermore, in the city of Sodegaura, we conducted verification testing of an "Internal AI Chatbot" using the AI FAQ solution "kotosora for LGWAN" (Note 9) compatible with the Local Government Wide Area Network.

In addition, to mitigate the risk of infection through contact, we developed a certificate issuing machine for universities using an aerial touch panel, which has been adopted by Kyoto Institute of Technology.

Going forward, we plan to continue to contribute to regional development through previously cultivated know-how and DX technologies.

Note 1: Health Challenge Campaign

Health promotion program that converts employees' activities to sustain or improve health into points and provides extra assistance for health service costs, etc. for employees who satisfy certain criteria.

Note 2: Company of Health Excellence Certification (Gold Certification)

A certification system by the Tokyo Promotion Council for Declaration of Healthy Company, which is consists of members of Tokyo Metropolitan Government's Health Insurance Association and other organizations, to recognize companies that declare their commitment to improving their overall health and achieve a certain level of results.

Note 3: Health & Productivity Management Brand 2022

The Ministry of Economy, Trade and Industry and the Tokyo Stock Exchange select 50 companies in 32 industry sectors among listed companies that think about health management of employees from a managerial viewpoint and work on health management strategically. This initiative aims to promote "health management" efforts made by companies by introducing such companies as attractive companies to investors who have stress on improvement in corporate value from a long-term standpoint.

Note 4: Health & Productivity Management Outstanding Organization (White 500)

The Health and Productivity Management Outstanding Organization awards are a system in which the Ministry of Economy, Trade and Industry and Nippon Kenko Kaigi recognize enterprises that are implementing health promotion initiatives. Under the system, 500 large enterprises that are implementing particularly outstanding health management practices are recognized as "White 500."

Note 5: e-Gov's online administrative services

Online administrative services are one function of the official web portal of Government of Japan, e-Gov. It is a system that allows online application in place of conventional administrative procedures, thereby removing the need for the application and filing by paper documents.

Note 6: RISC-V

ISA (Instruction. SetArchitecture) that has been developed publicly as open source.

Note 7: The Sao Khue Award

Has been held since 2003 to promote the development of the IT software industry in Vietnam. The award is given to outstanding IT companies and products.

Note 8: kotosora

A solution for FAQs that uses an AI chat engine to enable natural conversations feel like those of a real person.

Note 9: kotosora for LGWAN

Multi-language AI chatbot service that can be used on the Local Government Wide Area Network (LGWAN).

2) Outlook for the next fiscal year

We formulated Vision2030, aiming to further increase our corporate value through the dual approaches of creation of social value and economic value. Based on Vision2030, we set key challenges in terms of both businesses and management foundation, positioned the medium-term management plan (the fiscal year ending March 31, 2023 to the fiscal year ending March 31, 2025) as the 1st Stage, and established KPIs to achieve the plan.

In light of the above-mentioned policies, consolidated earnings forecasts for the fiscal year ending March 2023 are as follows.

(Million yen)

| | Consolidated | Year-on-year change |
|---|--------------|---------------------|
| Net sales | 100,000 | 5.9 |
| Operating profit | 11,400 | 1.8 |
| Ordinary profit | 11,600 | 1.7 |
| Profit attributable to owners of parent | 7,950 | 1.2 |
| EBITDA | 12,100 | 2.6 |

Note: The forecasts for net sales and profits provided in this financial results report are made on the basis of projections derived from information currently available to the Company including industry trends and other economic conditions, as well as trends among customers, all of which are subject to the influence of a variety of uncertain factors. Consequently, actual net sales and profits may differ from the forecasts provided in this financial results report.

(2) Overview of financial position for the fiscal year under review

1) Overview of assets, liabilities and net assets

Total assets as of March 31, 2022 were ¥79,116 million. Investment securities decreased by ¥1,262 million. However, total assets increased by ¥3,943 million compared to the end of the previous fiscal year due to the increase in cash and deposits of ¥2,415 million, the increase in notes and accounts receivable - trade, and contract assets of ¥1,190 million, the increase in merchandise and finished goods of ¥911 million, and the increase in securities of ¥599 million.

Liabilities were \$16,982 million. The provision for bonuses decreased by \$171 million, but liabilities increased by \$1,219 million compared to the end of the previous fiscal year due to a \$1,098 million increase in accounts payable - trade and a \$211 million increase in accounts payable - other.

Net assets were ¥62,133 million. While treasury shares increased by ¥2,000 million due to purchase of treasury shares, valuation difference on available-for-sale securities decreased by ¥350 million, and retained earnings decreased by ¥2,966 million due to the dividends of surplus, net assets increased by ¥2,724 million compared to the end of the previous fiscal year according to an increase in retained earnings of ¥7,853 million due to profit attributable to owners of parent. Due to cancellation of treasury shares, treasury shares, capital surplus, and retained earnings decreased by ¥1,831 million, ¥1,238 million, and ¥592 million, respectively.

2) Overview of cash flows for the fiscal year under review

Cash and cash equivalents (hereinafter, "cash") as of March 31, 2022 was ¥45,817 million, an increase of ¥2,489 million from ¥43,327 million as of the previous fiscal year-end.

The respective cash flow positions in the fiscal year under review and comparisons with the previous fiscal year are as follows.

Net cash provided by operating activities was \(\frac{4}{5}89\) million. There was a decrease in cash provided of \(\frac{4}{1},776\) million compared with the previous fiscal year. This mainly reflected factors such as a decrease in expenditures due to an increase in trade payables of \(\frac{4}{8}75\) million, an increase in expenditures of \(\frac{4}{1},070\) million due to an increase in inventories, which had previously been decreasing, a decrease in revenue of \(\frac{4}{1},040\) million due to an increase in trade receivables and contract assets, which had previously been decreasing, and an increase in expenditures due to an increase in income taxes paid of \(\frac{4}{4}92\) million.

Net cash used in investing activities was \(\pm\)139 million. There was a decrease in cash used of \(\pm\)555 million compared with the previous fiscal year. This mainly reflected factors such as an increase in expenditures due to an increase of \(\pm\)325 million in the purchase of shares of subsidiaries resulting in change in scope of consolidation, and an increase in revenue mainly due to an increase of \(\pm\)600 million in proceeds from redemption of securities and a decrease of \(\pm\)186 million in net decrease in short-term loans receivable.

Net cash used in financing activities was \$5,025 million. There was an increase in cash used of \$1,177 million compared with the previous fiscal year. This mainly reflected factors such as an increase of purchase of treasury shares of \$1,002 million and an increase of dividends paid of \$202 million.

The following table shows trends in cash flow indicators for the DTS Group.

| | The following more shows trends in each new indicators for the B1s Group. | | | | |
|-------------------------------------|---|-------------------|-------------------|-------------------|-------------------|
| | | Fiscal year ended | Fiscal year ended | Fiscal year ended | Fiscal year ended |
| | | March 31, 2019 | March 31, 2020 | March 31, 2021 | March 31, 2022 |
| Equity ratio | (%) | 76.7 | 78.0 | 78.8 | 78.4 |
| Market value equity ratio | (%) | 142.3 | 123.2 | 154.0 | 152.6 |
| Interest-bearing debt to cash ratio | flow (%) | - | 1.2 | 0.3 | 3.1 |
| Interest coverage ratio (ti | imes) | 179,038.0 | 463.6 | 560.0 | 378.5 |

Note: Equity ratio: Equity / Total assets

Market value equity ratio: Market capitalization / Total assets

Interest-bearing debt to cash flow ratio: Interest-bearing debt / Cash flow

Interest coverage ratio: Cash flow / Interest payment

^{*} All calculations are made using consolidated financial figures.

- * For the calculation of market capitalization, the total number of issued shares less treasury shares is used.
- * Cash flow from operating activities is used for cash flow.
- * Interest-bearing debt includes all debt reported on the consolidated balance sheets on which interest is paid.
- * For interest payment, interest expenses paid on the consolidated statements of cash flows is used.

(3) Basic policy for profit sharing and dividends for the fiscal year under review and next fiscal year

The Company regards the return of profits to shareholders as one of the priority issues of management, and believes that medium- to long-term growth in corporate value is the largest source of profit return. The Company is working to pay stable dividends on an ongoing basis and implement a flexible capital policy such as purchase of treasury shares, aiming to ensure the return of profits to shareholders in the medium- and long-term, after making a comprehensive consideration of results trends, its financial position and other factors as well as cash reserves needed for business expansion.

The Company intends to make use of cash reserves for forward-looking investment to boost corporate value in the medium- to long-term, including development investment in new information technology, capital alliances for operational expansion and new business development, investment in employee training, and investment to strengthen managerial functions.

Regarding the year-end dividend for the fiscal year under review, in addition to achieving a record-high operating profit, the profit attributable to owners of parent also achieved a record high and exceeded the initial earnings forecast, so the dividend is scheduled to increase by \(\frac{45}{25}\) from the start-of-year dividend forecast to pay a year-end dividend of \(\frac{440}{25}\) per share. As a result, the planned annual dividend is \(\frac{470}{25}\) per share, including the interim dividend of \(\frac{430}{25}\) per share already paid.

For annual dividend in the next fiscal year, the Company plans to pay a "commemorative dividends in celebration of the 50th founding anniversary" of ¥50 per share, and dividends per share including common dividends will be ¥120 per share per annum (interim dividend of ¥50 (including the commemorative dividend of ¥20) and a year-end dividend of ¥70 (including the commemorative dividend of ¥30)).

(4) Business and other risks

Risks that may have an impact on the operating results and financial position of the DTS Group are as follows. Forward-looking statements mentioned in this discussion of risks reflect the judgment of the DTS Group (the Company and its consolidated subsidiaries) as of March 31, 2022.

1) Changes of business environment

In the information services industry, the Group expects strong IT investment from all industries due to the expansion of digital business, etc.

Since the Group has been providing IT services according to the needs of customers in a wide range of industries and types of business on the basis of quality that relies on business expertise and information technology, its businesses employ a structure that is unlikely to be affected by trends of investment in specific industries.

However, if there arises a change in the trends of IT investment from customers caused by the changes of social and economic conditions, then it may affect the results of the Group.

2) Price competition

In the information services industry, to which the DTS Group belongs, customers are becoming increasingly demanding with regard to investment in information technology. As such, customers constantly compare the relative merits of the DTS Group with those of industry competitors both in terms of price and service quality.

In particular, the Company expects more intense competition with regard to prices as a result of new entrants from other industries, entry into Japan by overseas companies and the expanded selection of software packages.

Amid this market environment, the Company is endeavoring to minimize the effects of price competition from cost cutting by thoroughly promoting project profit management and working to improve productivity and train DX employees, as well as providing high-value added services that

use new technology.

Nevertheless, the results of the DTS Group may be affected if any external factor causes downward price pressure in excess of that anticipated by the Company.

3) Business overseas

As a part of the Group's overseas business strategy, the Group will promote expansion of overseas businesses, such as by expanding overseas dealings and promoting establishment and capital tie-ups of overseas subsidiaries, and will also strengthen governance.

In carrying out overseas operations, the DTS Group anticipates exposure to a wide variety of risks. With respect to overseas business transactions, risks may include problems arising from insufficient understanding or research regarding country and local laws such as export control laws, and trade customs, or differences between such laws and customs, and with respect to establishment, share acquisition and operation of overseas subsidiaries, risks may include an inability to comply properly with local laws, accounting treatments, labor management practices, contracts and project management. The DTS Group is aware of such risks and is strengthening risk management by putting a business division in charge of handling risks.

Nevertheless, the results of the DTS Group may be affected if an inability to comply appropriately with local legal regulations, etc. causes it to become subject to various litigation or liable for compensation for damages.

4) Business models and technological innovation

The environment surrounding the Group is expected to change drastically.

The Group formulated Vision2030, aiming to keep abreast of environmental changes in the IT market, technologies, ESG, etc., build a new growth model by proactively investing in digital, solution and service businesses, human resources who realize these businesses in addition to evolution of existing SI business models, and further increase its corporate value through the dual approaches of creation of social value and economic value.

To achieve these objectives, the Group has set "enhancement of the value that the Group proposes," "combination of SI x digital," "expanding into new fields and globally," "strengthening of ESG initiatives," and "reforms of the Group's management foundation" as key challenges, and will work on initiatives.

However, if the adaptation of the Group to any rapid change of customer needs, or to technological innovation is behind schedule, then it may affect the results of the Group.

5) Legal regulation

The Group promotes businesses with the highest priority on compliance with laws and regulations such as the Companies Act, the Financial Instruments and Exchange Act and the Personal Information Protection Act.

Not only has the Group created the Group's compliance basic principles, code of conduct, etc., but also it has been providing compliance training and awareness programs to the Group corporate officers and employees as well as partner company employees, and it is continuing to comply with laws and regulations.

However, if a serious compliance violation or an event that conflicts with laws and regulations occurs, then that may deteriorate the social credibility of the Group and affect the results of the Group.

6) Litigation, etc.

The Group is not currently subject to any lawsuits that could affect its financial position or results. However, the Group could become the subject of litigation including claims for compensation for damages with regard to faults, defects, or delivery delays in the services provided by the Group, infringement of the rights of third parties, customer information leaks including personal information, defamation, inappropriate labor management, or other matters.

The Group recognizes that strengthening and enhancement of corporate governance is an important management priority, and has established the necessary systems for compliance, information security,

and quality management, etc. However, depending on the details and results, such litigation, etc., could affect the results of the Group.

7) Intellectual property right, etc.

The Group, in its business activities, always makes sure not to infringe on any intellectual property rights owned by third parties, including patent right, trademarks, and copyrights.

The Group has tried to improve employees' awareness regarding intellectual property rights through training, etc., The Group also files applications and registers patents and trademarks for the technologies and business models that it needs.

However, there is a possibility that the Group's business may receive a claim for infringement on the intellectual property right of another company, and there is a possibility that a third party may infringe on the intellectual property right of the Group, if either case arose, that may affect the business, the results, etc. of the Group.

8) Human resources, etc.

One of essential factors for sustainable growth of the Group is the securing and development of employees having high technical skills and expertise.

For this reason, respecting diversity, the Group will establish an environment to promote active involvement of such human resources, and encourage regular implementation of employee engagement survey as well as analysis and responses to the survey.

In addition, regarding securing of employees, the Group hires new graduates from a medium- to long-term perspective and career employees with excellent expertise, and also focuses on the development of employees, including learning of new techniques in the DX area, support for acquiring professional qualifications, etc.

However, if the securing of employees is not as successful as expected, or if an exodus of employees or the decrease of productivity caused by the deterioration of working environments occurs, then it may affect the results or the business development of the Group.

9) Management of software development projects

In order to secure competitive advantages for themselves, customers are becoming increasingly demanding with regard to shortening system development turnaround times. As a result, project management and quality management are becoming even more important than before.

The Group is striving to disseminate its own development standards within the company. Moreover, we are engaged in the prevention of unprofitable projects by ascertaining the status of projects through the establishment of the Project Promotion Committee, which aims to deliberate on whether or not to accept projects with an order value exceeding a certain level or deemed necessary, and to periodically monitor the status of project progress. At the current time, there are no unprofitable projects which risk posing a significant impact on the Group.

Nevertheless, the results of the DTS Group may be affected if projects with a negative impact on profitability occur due to unforeseen circumstances, notwithstanding the measures taken to prevent such occurrences.

10) Security

Companies operating in the information service business, an area of strength for the DTS Group, come into contact with important information of various customers due to the nature of the business. As a consequence, security management is an important operational issue.

The Company has developed internal rules on the handling and management of information. It has also examined whether internal networks and major systems are free from security vulnerabilities and considered and implemented enhanced measures as necessary, including zero trust security.

The Company has also obtained the "Privacy Mark" certification as one of its activities for the protection of personal information, and carries out training to enhance awareness about handling information among employees of the Company and employees of business partners. In addition, the Company has obtained certification for its Information Security Management System (ISMS) and is

working to strengthen its security management structure further. The DTS Group has formulated a Compliance Guide to be followed by the entire DTS Group, including group companies in Japan and overseas, and is working to develop internal rules at each group company and raise employees' awareness regarding the handling of security information.

Nevertheless, the results of the DTS Group may be affected in the unlikely event of a serious leakage of information, as such a leak would expose the Company to the possibility of being held liable for compensation for damages, in addition to other problems such as customer cancellations caused by loss of trust in the Company.

11) Business continuity

Many bases including the corporate headquarters are concentrated in greater metropolitan areas, and therefore, the Group needs to change this just in case of the outbreak of a large-scale natural disaster, the spread of a contagious disease, etc.

The Group has been working on business continuity while utilizing working systems including telework and staggered working hours, prioritizing the safety and security of employees, and figuring out customers' intentions.

However, if an unexpected event occurs, then it may affect the results of the Group because of service provision delayed by restoration.

12) Impact of COVID-19

The prolonging of the impact of COVID-19 may affect the Group's businesses. Orders may not proceed as anticipated due to the impact of IT investment controls or postponements associated with a customer downturn resulting from a drop in consumption.

In order to contribute to the advance of digitization in diverse work-styles and lifestyles amid the COVID-19 pandemic, the Group will meet the needs of customers in a wide range of industries and categories by promoting digital business.

2. Status of the Corporate Group

The corporate group consists of the Company (DTS CORPORATION), thirteen consolidated subsidiaries, and one non-consolidated subsidiary, and is primarily engaged in the information service business. Taking into account the industries to which customers belong and the nature of services provided, the Group classifies its reportable segments into "Finance and Society," "Corporate Solutions," "Operational Infrastructure BPO," and "Regional, Overseas, Etc.," and engages in its business activities accordingly.

The contents of the corporate group's businesses and the relationships among each of the companies in the group are as follows.

[Finance and Society]

To customers in the financial sector, which includes the banking, insurance and securities industries, and the public sector, which includes medical welfare, pensions, local governments and communications, the Group provides the following services.

- Consulting in relation to the deployment of information systems
- Design, development, operation, maintenance, etc. of systems (including design and construction of platforms, networks and so on)
- Deployment, operation, maintenance, etc. of in-house developed solutions

[Corporate Solutions]

To customers in the information services, manufacturing, retail, distribution, air transport and other industries, the Group provides the following services.

- Consulting in relation to the deployment of information systems
- Design, development, operation, maintenance, etc. of systems (including design, construction and embedding of platforms, networks and so on)
- Deployment, operation and maintenance of in-house developed solutions, ERP solutions, etc.

[Operational Infrastructure BPO]

To customers, the Group provides the following services.

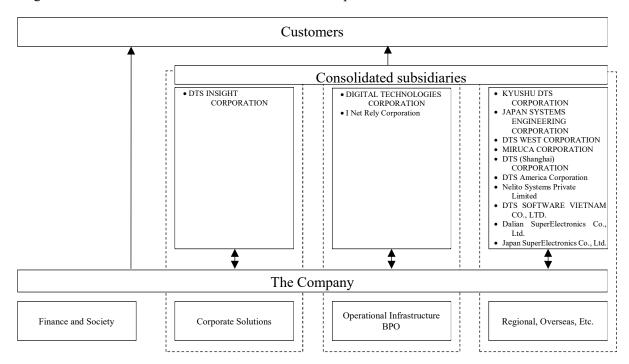

- Operational design and maintenance of total information systems, including cloud-related services and virtualization systems
- System operation either through permanently station personnel or remote access, monitoring operations
- System operational diagnosis and optimization services, primarily for IT infrastructure
- Sales of system equipment, etc.

[Regional, Overseas, Etc.]

To customers such as regional companies and overseas companies developing globally, the Group provides the following services.

- Design, development and maintenance of systems, and deployment of solutions including in-house developed solutions
- Educational services in the IT field, etc.
- Design, development, operations, maintenance, etc. of software

An organizational chart of the businesses in the DTS Group is as follows.

Consolidated subsidiaries

| Name | Share capital | Ratio of voting rights held | Main business lines |
|--|---------------------|-----------------------------|---------------------|
| KYUSHU DTS CORPORATION | ¥100 million | 100.00% | Information Service |
| JAPAN SYSTEMS ENGINEERING CORPORATION | ¥310 million | 100.00% | Information Service |
| DTS WEST CORPORATION | ¥100 million | 100.00% | Information Service |
| MIRUCA CORPORATION | ¥100 million | 100.00% | Information Service |
| DIGITAL TECHNOLOGIES CORPORATION | ¥100 million | 100.00% | Information Service |
| DTS (Shanghai) CORPORATION | CNY 14 million | 100.00% | Information Service |
| DTS America Corporation | US \$200,000 | 100.00% | Information Service |
| DTS INSIGHT CORPORATION | ¥200 million | 100.00% | Information Service |
| DTS SOFTWARE VIETNAM CO., LTD. | US \$1.2 million | 100.00% | Information Service |
| Nelito Systems Private Limited | INR 20.6 million | 98.80% | Information Service |
| Dalian SuperElectronics Co., Ltd. (Note) | CNY 10.3 million | 51.00% (51.00%) | Information Service |
| Japan SuperElectronics Co., Ltd. (Note) | ¥20 million | 51.00% (51.00%) | Information Service |
| I Net Rely Corporation | ¥76 million | 100.00% | Information Service |

Note: The number within the () of the ratio of voting rights held is the ratio of voting rights which are indirectly held.

3. Management Policies

(1) Basic management policies

The DTS Group believes that it is vitally important to strive to strengthen its business performance and secure a certain level of results as a group of enterprises with a long track record in the information services industry, while also returning profits to stakeholders on the basis of that performance and working to increase medium- and long-term corporate value. Furthermore, the DTS Group's corporate philosophy is to utilize "potential to bring joy to people and affluence to society" as one of the "skills" of the Group, and to "utilize its skills to build up the trust of customers, expand corporate value, enhance the lives of employees, and contribute to society." Based on this philosophy, the DTS Group aims to be a group of enterprises that is trusted by all its stakeholders and provides a sense of reassurance, and will work to enhance its presence in the information services industry as a group of independent, comprehensive information service providers that is always at the forefront of the industry. The DTS Group also intends to achieve further development by establishing a sound and strong management foundation.

(2) Medium- to long-term management strategies and issues to be addressed

The environment surrounding the Group is expected to change drastically.

The Group formulated Vision2030, aiming to keep abreast of environmental changes in the IT market, technologies, ESG, etc., build a new growth model by proactively investing in digital, solution and service businesses, human resources who realize these businesses in addition to evolution of existing SI business models, and further increase its corporate value through the dual approaches of creation of social value and economic value.

To achieve these objectives, the Group has set "enhancement of the value that the Group proposes," "combination of SI x digital," "expanding into new fields and globally," "strengthening of ESG initiatives," and "reforms of the Group's management foundation" as key challenges, and will work on initiatives.

(3) Targeted management indicators

In the medium-term management plan (April 2022 to March 2025), which is the 1st Stage in Vision2030, the Group set key challenges in terms of both businesses and management foundation, and aims as follows to achieve them.

<Financial goals for the fiscal year ending March 31, 2025>

| | Consolidated net sales | ¥110.0 billion or more |
|-----------------------|--|--|
| Operating revenue | EBITDA | ¥13.0 million or more |
| | EBITDA margin | Around 12% |
| Investment | Investment limitation (cumulative total for three years) | ¥25.0 billion |
| Management efficiency | ROE | 13% or more |
| | Payout ratio | 50% or more |
| Shareholder returns | Total return ratio | 70% or more (around 130% in FY2022) |

^{*}Operating profit of ¥12.0 billion or more (reference value)

<Non-financial goals for the fiscal year ending March 31, 2025>

| Focus areas | Net sales of focus businesses (*1) | 40% or more |
|-------------|---|-------------|
| | Reduction of CO2 emissions (relative to FY2013) | 50% or more |
| | SDGs-related net sales (*2) | 40% or more |
| ESG | Ratio of female managers | 6% or more |
| | Ratio of female Directors | 10% or more |
| | Independent Outside Directors | Majority |

- (*1) Business fields on which the Group will focus, composed of three growth engines: Digital Biz, Solution Biz and Service Biz.
- (*2) Net sales of projects adapted to SDGs goals (17 items)

4. Basic Concept Regarding Selection of Accounting Standard

At the moment, the DTS Group's fund procurement activities are limited to domestic capital markets. The Company will continue to use the generally accepted accounting standards in Japan (Japanese GAAP) for the time being, but given this limitation, it will consider adopting International Financial Reporting Standards (IFRS) while monitoring trends in IFRS adoption by other Japanese companies.

5. Consolidated Financial Statements and Significant Notes Thereto

(5) Notes to consolidated financial statements

(Notes on premise of going concern)

No items to report.

(Changes in accounting policies)

(Application of accounting standard for revenue recognition, etc.)

The Company has applied the "Accounting Standard for Revenue Recognition" (ASBJ Statement No. 29, March 31, 2020) and relevant revised ASBJ regulations effective from the beginning of the fiscal year under review, and it has recognized revenue at the time the control of promised goods or services is transferred to the customer at the amount expected to be received upon exchange of said goods or services.

The application of the Accounting Standard for Revenue Recognition and relevant revised ASBJ regulations is subject to the transitional treatment provided for in the proviso to paragraph 84 of the Accounting Standard for Revenue Recognition. The cumulative effect of the retrospective application, assuming the new accounting policy had been applied to periods prior to the beginning of the fiscal year under review was added to or deducted from the opening balance of retained earnings of the fiscal year under review, and thus the new accounting policy was applied from such opening balance; provided, however, that the new accounting policy was not retrospectively applied to contracts for which nearly all the revenue amounts had been recognized according to the previous treatment in periods prior to the beginning of the fiscal year under review, by applying the method provided for in paragraph 86 of the Accounting Standard for Revenue Recognition.

Due to the application of the Accounting Standard for Revenue Recognition and relevant revised ASBJ regulations, "Notes and accounts receivable - trade" under current assets of the consolidated balance sheet as of the end of the previous fiscal year has been included in "Notes and accounts receivable - trade, and contract assets" under current assets from the consolidated balance sheet as of the end of the fiscal year under review. In addition, "Decrease (increase) in trade receivables," which was presented in "Cash flows from operating activities" in the consolidated statements of cash flows for the previous fiscal year, has been included in "Decrease (increase) in trade receivables and contract assets" from the fiscal year under review.

In accordance with the transitional treatment provided for in paragraph 89-2 of the Accounting Standard for Revenue Recognition, figures for the previous fiscal year have not been restated in accordance with the new approach to presentation.

(Application of accounting standard for fair value measurement, etc.)

The Company has applied the "Accounting Standard for Fair Value Measurement" (ASBJ Statement No. 30, July 4, 2019) and relevant ASBJ regulations effective from the beginning of the fiscal year under review, and it has applied the new accounting policy set forth by the Accounting Standard for Fair Value Measurement and relevant ASBJ regulations prospectively in accordance with the transitional treatment provided for in paragraph 19 of the Accounting Standard for Fair Value Measurement and paragraph 44-2 of the "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10, July 4, 2019). This change has no impact on the consolidated financial statements.

(Changes in presentation)

(Consolidated statements of income)

"Commission expenses," which was included in "Other" under "Selling, general and administrative expenses" in the previous fiscal year, has been separately presented from the fiscal year under review, because it has exceeded 10% of the total amount of selling, general and administrative expenses. In addition, "Foreign exchange losses," which was included in "Other" under "Non-operating expenses," has been separately presented from the fiscal year under review because it has exceeded 10% of the total amount of non-operating expenses. To reflect these changes in method of presentation, the

Company has reclassified the consolidated financial statements for the previous fiscal year.

As a result, $\frac{4}{4},098,894$ thousand shown as "Other" under "Selling, general and administrative expenses" in the consolidated statements of income for the previous fiscal year is reclassified as "Commission expenses" of $\frac{4}{25},028$ thousand, "Other" of $\frac{4}{3},373,865$ thousand, while $\frac{4}{8},070$ thousand shown as "Other" under "Non-operating expenses" is reclassified as "Foreign exchange losses" of $\frac{4}{3},336$ thousand and "Other" of $\frac{4}{3},734$ thousand.

(Consolidated statements of cash flows)

"Net decrease (increase) in short-term loans receivable," which was included in "Other, net" under "Cash flows from investing activities," has been separately presented from the fiscal year under review, because it has become more quantitatively important. To reflect this change in method of presentation, the Company has reclassified the consolidated financial statements for the previous fiscal year.

As a result, \(\pm\)18,137 thousand shown as "Other, net" under "Cash flows from investing activities" in the consolidated statements of cash flows for the previous fiscal year is reclassified as "Net decrease (increase) in short-term loans receivable" of negative \(\pm\)598 thousand and "Other, net" of \(\pm\)18,735 thousand.

[Segment Information]

1. Overview of reportable segments

The Group identifies a reportable segment as a component unit that constitutes a business for which discrete financial information is available and is regularly reviewed by the Board of Directors to make decisions on the allocation of management resources to the segments and assess its performance.

The Group classifies its reportable segments by business unit, based on the nature of services provided and the market served, and multiple businesses and group companies that could generate synergy. The Group has four reportable segments: "Finance and Society," "Corporate Solutions," "Operational Infrastructure BPO," and "Regional, Overseas, Etc."

The contents of each segment's business activities are as follows.

(1) Finance and Society

To customers in the financial sector, which includes the banking, insurance and securities industries, and the public sector, which includes medical welfare, pensions, local governments and communications, the Group provides the following services.

- Consulting in relation to the deployment of information systems
- Design, development, operation, maintenance, etc. of systems (including design and construction of platforms, networks and so on)
- Deployment, operation, maintenance, etc. of in-house developed solutions

(2) Corporate Solutions

To customers in the information services, manufacturing, retail, distribution, air transport and other industries, the Group provides the following services.

- Consulting in relation to the deployment of information systems
- Design, development, operation, maintenance, etc. of systems (including design, construction and embedding of platforms, networks and so on)
- Deployment, operation and maintenance of in-house developed solutions ERP solutions, etc.

(3) Operational Infrastructure BPO

To customers, the Group provides the following services.

- Operational design and maintenance of total information systems, including cloud-related services and virtualization systems
- System operation either through permanently station personnel or remote access, monitoring operations
- System operational diagnosis and optimization services, primarily for IT infrastructure
- Sales of system equipment, etc.

(4) Regional, Overseas, Etc.

To customers such as regional companies and overseas companies developing globally, the Group provides the following services.

- Design, development and maintenance of systems, and deployment of solutions including inhouse developed solutions
- Educational services in the IT field, etc.
- Design, development, operations, maintenance, etc. of software

2. Method for calculating net sales, profit (loss), assets, liabilities and other items by reportable segment

The accounting method used for the business segments reported is the same as the accounting method employed to prepare the consolidated financial statements. Segment profit of the reportable segments are on an operating profit basis and intersegment revenues and transfers are based on general transactions identical to arm's length transactions.

3. Information about net sales, profit (loss), assets, liabilities and other items by reportable segment

For the fiscal year ended March 31, 2021 (from April 1, 2020 to March 31, 2021)

Notes: 1. There were no material segment profit adjustments.

- 2. Segment profit is reconciled to operating profit in the consolidated statements of income.
- 3. Assets are not allocated to business segments.

4. Matters concerning changes in reportable segments

As stated in "Changes in accounting policies," since the Group has applied the Accounting Standard for Revenue Recognition and relevant revised ASBJ regulations and changed the method of accounting for revenue recognition from the beginning of the fiscal year under review, the method of measuring profit (loss) of business segments has been changed likewise.

As a result of this change, in the fiscal year under review, "Finance and Society" showed a decrease of \(\frac{\pmathbf{47}}{,227}\) thousand in sales to external customers and a decrease of \(\frac{\pmathbf{41}}{16,780}\) thousand in segment profit, "Corporate Solutions" showed an increase of \(\frac{\pmathbf{41}}{11,4871}\) thousand in sales to external customers and an increase of \(\frac{\pmathbf{48}}{8,03}\) thousand in segment profit, "Operational Infrastructure BPO" showed an increase of \(\frac{\pmathbf{47}}{10,425}\) thousand in sales to external customers and an increase of \(\frac{\pmathbf{41}}{10,929}\) thousand in sales to external customers and an increase of \(\frac{\pmathbf{43}}{3,885}\) thousand in segment profit, compared to the previous method.

[Related Information]

For the fiscal year ended March 31, 2021 (from April 1, 2020 to March 31, 2021)

1. Information by product and service

This information is omitted as it is identical to that in segment information.

2. Information by geographical area

(1) Net sales

It is omitted since net sales to external customers in Japan exceeds 90% of net sales on the consolidated statements of income.

(2) Property, plant and equipment

It is omitted since the amount of property, plant and equipment held in Japan exceeds 90% of the amount of property, plant and equipment on the consolidated balance sheets.

3. Information by major customer

Information regarding major customers is omitted as net sales to each single external customer amount to less than 10% of consolidated net sales.

For the fiscal year ended March 31, 2022 (from April 1, 2021 to March 31, 2022)
